

Exclusive to Resene

# Durepox

The Choice of Champions

## High Performance Clear

A 2-pack epoxy urethane clear coating formulated for the Marine and Industrial markets. It can be used as a clear coating for substrates which are coated with Durepox Primer or directly over bare carbon fibre, fibreglass, concrete, veneer coated ply and most wood substrates.

### Uses/Applications

- Marine
- Industrial
- Can be used over Durepox Primer or bare substrates.
- Can be applied to Wood, Fibreglass, Concrete, Carbon Fibre & other substrates with Durepox Primer already applied.

### Features

- Remarkable flexibility
- Great adhesion
- Does not require sanding sealers
- Fast drying
- Easy to apply by spray, brush or roll
- It is an excellent water barrier and shows superior weather ability

### Benefits

- High film build & low in physical weight
- Extremely durable and hard wearing
- New Zealand Made
- Can be tinted to a variety of colours

Durepox is a hugely popular and well known coating amongst yacht racers, it can be found on many race boats, including America's Cup, Volvo yachts and many racing yachts.

Durepox can be used on the underwater hull, top sides, decks and rigging as it delivers outstanding adhesion, water resistance, weight savings and full colour options in one product system.

Independent testing has shown that Durepox reduces drag compared to most other standard marine finishes. Used by Emirates Team New Zealand and other syndicates competing in the 36th America's Cup in Auckland in 2021.
